

School Mental Health Capacity-Building Grant Application

Summary

The capacity-building grants are designed to assist school districts with the ongoing implementation of the School Mental Health Toolkit and 10 best practices. The proposed use of funds must fall within the following 3 capacity-building categories. Applicants are encouraged to work with community partners or other stakeholders in the development of your plan for the school district.

Grants are awarded up to \$5,000 per school district. Higher requests will be considered if need is demonstrated by the applicant. Applications are accepted on a rolling basis. Decisions will be made once per month. Funds must be spent within 6 months of the award date. A mid-point check in call with Mental Health Colorado is required 3 months after the award date.

Grantees must submit a report on outcomes within 7 months of receiving the grant.

Eligibility Requirements

Eligible applicants are school districts, local education agencies (LEA), boards of cooperative educational services (BOCES) and community partners. Community partners must be a registered entity with the State of Colorado.

Districts must have completed an initial Toolkit review and planning meeting with Mental Health Colorado and must include a completed copy of the Toolkit's Needs Assessment.

Grant Categories

- Professional development costs and staff training time associated costs. Trainings will allow teachers, school mental health staff and other staff to gain competency in mental health related topics. Examples include:
 - Youth Mental Health First Aid
 - Social Emotional Learning
 - External trainers hired to train on specific subjects relevant to district needs (suicide prevention, anti-bullying, LGBT supports, etc.)
- Purchase of intervention programs, curriculum, and tools. Examples include:
 - Social Emotional Learning curriculum
 - Curriculum-based interventions for mental health staff
 - Screening tools (Behavioral and Emotional Screening System, Devereux Student Strengths Assessment, etc.)
- Technical assistance and consulting services. Examples include:
 - Extended consultation for needs assessment
 - Extended consultation for strategic planning which includes enhancement of the application of the 10 best practices and strategic use of district funding
 - Extended consultation on the implementation of the 10 best practices
 - District-wide consultation on a specific model or intervention (Sources of Strength, trauma-informed care in schools, etc.)
