Level & Benefits:

\$200 per event

- Your organization's logo on event webpage
- Recognition as a sponsor during the event's opening and closing remarks
- Two complimentary registrations for paid events

Events:

[Brain Wave Webinar Series](#)

Mental Health Colorado will host four quarterly webinars in 2024 to educate and activate our grassroots network of advocates – the Brain Wave. During these webinars, staff will discuss the 2024 Legislative Session, legislative and regulatory priorities for Mental Health Colorado, in our state and nationally, and the importance of advocacy in creating a better future for Coloradans across the lifespan.

[Natural Psychedelic Medicines Webinar Series](#)

Next year, healthcare providers across the state will have the opportunity to offer groundbreaking mental health services to their patients and clients with regulated psilocybin therapy. Mental Health Colorado has teamed up with Healing Advocacy Fund Colorado to offer a free webinar series on natural psychedelic medicines in winter and spring 2024. This 4-part series will equip providers with the necessary information to understand the new laws and explain the therapeutic potential of natural medicines to patients and clients.

[Care Not Cuffs Monthly Reports & Updates Webinar](#)

These monthly reports and updates from health and safety partners (including first responders, health care provider organizations, public defenders, prosecutors, judges, harm reduction specialists, researchers, advocates and others) provide a platform for accelerating local, state, and nationwide efforts to provide health care for health needs. Care Not Cuffs builds the movement to reduce the criminalization of people with unmet health needs and the poor outcomes associated with relying on jails and prisons as our nation's primary psychiatric institutions.

[Well-Being in the Construction Industry Roundtable](#)

This spring, Mental Health Colorado is teaming up with the Association of Medical Facility Professionals (AMFP) to host an in-person roundtable focused on mental health and well-being in the construction industry. Our mission is to create a collaborative platform where industry leaders unite to promote understanding, offer support, and drive meaningful change in order to build a safer, more compassionate, and healthier construction community for all.
